

## BioBalance 4 Women® and BioBalance 4 Men™

Kathy C. Maupin, M.D.

10806 Olive Blvd • Creve Coeur, MO 63141 • 314-993-0963 • [www.biobalance4women.com](http://www.biobalance4women.com)

Dr. Kathy Maupin and BioBalance 4 Women have been treating women in St. Louis and Kansas City for over 5 years with bio-identical hormone pellets. In response to her patients' request, she initiated BioBalance 4 Men to treat men who are experiencing andropause with bio-identical testosterone pellets.

BioBalance 4 Women & BioBalance 4 Men are practices that combine visionary bio-identical hormone therapy for women and men, comprehensive health and wellness planning, and anti-aging skin care. The purpose of this innovative medical model is to bring back the vitality and virility we all experienced in our 30's. This year the Baby-Boomers are turning 55 and pellet therapy can bring them back to health. Hormone pellets DO NOT generate the same side effects that topical lotions, injections, pills or other forms of hormone replacement are now reported to cause.

This visionary path taken by Dr. Kathy Maupin and her staff of nurse practitioners and registered nurses contradicts the classic American medical model that simply accepts the deleterious effects of the aging process, treating symptoms of diseases and ignoring "health" as a goal. In contrast, BioBalance 4 Women and BioBalance 4 Men replace hormones that disappear as we age. Replacement is done using the exact hormone and the exact delivery method necessary to recreate health, instead of merely treating illness.

Dr. Maupin walked in the shoes of her hormone depleted patients and wants to share the health she now experiences herself. You, too can join her in saying, "I'm Back!"
